

# Ghid instalare UNITY 3D (Windows/Mac OS)

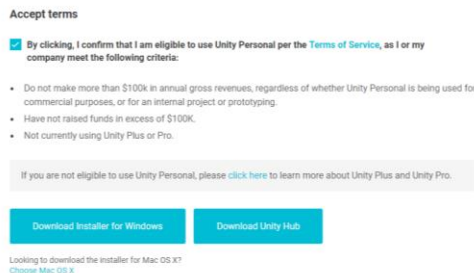

1. **Accesati aceasta pagina:** <https://unity3d.com/get-unity/download>
2. **Selectati "Choose your Unity + download"**

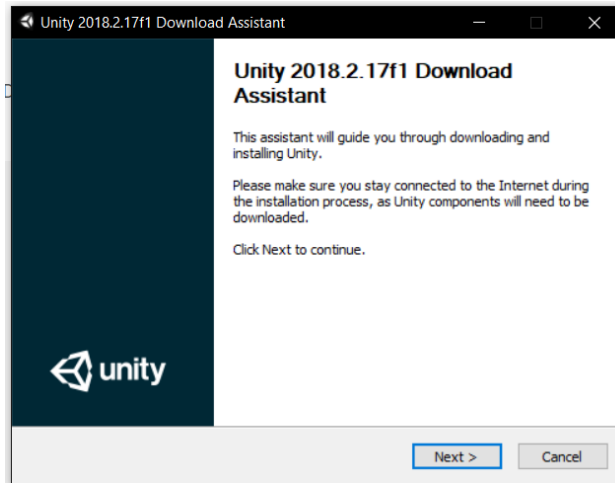

3. **Din coloana "Personal/For Beginners" selectati "Try Personal"**

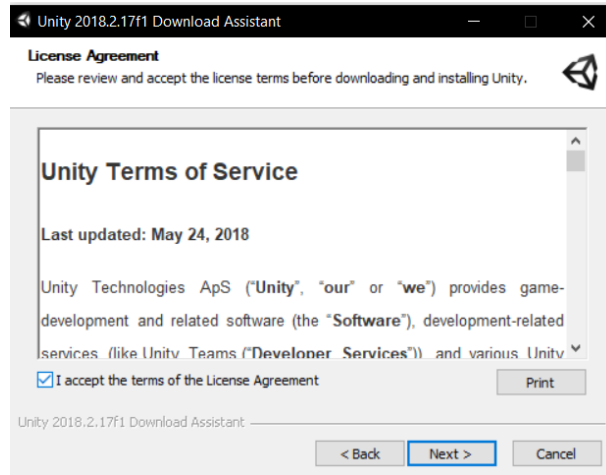

4. **Daca sunteti de acord cu "Terms of Service", bifati casuta si puteti continua cu descarcarea unei utilitar de tip .exe care sa instaleze Unity.**  
**! Daca folositi Mac OS, aveti posibilitatea la acest pas sa descarcati alt utilitar.**

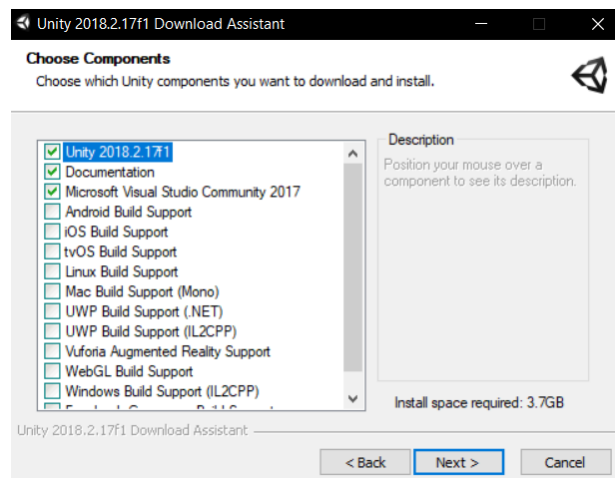

5. Odata finalizata instalarea, se va deschide utilitarul si dati next.

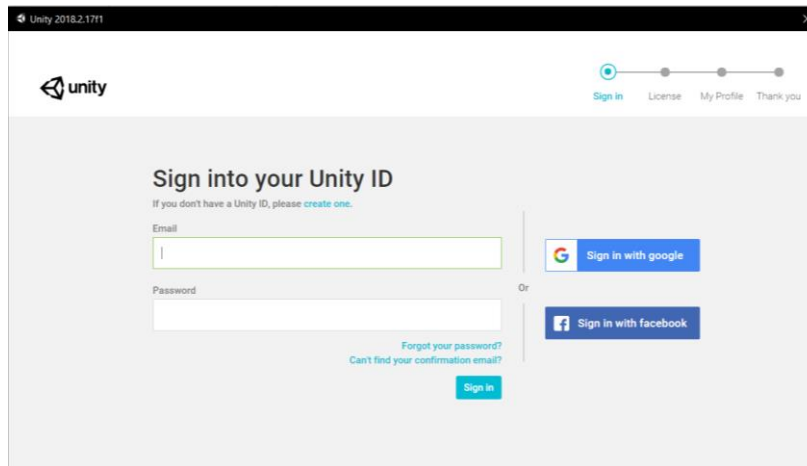

6. Bifati casuta si continuati cu next.

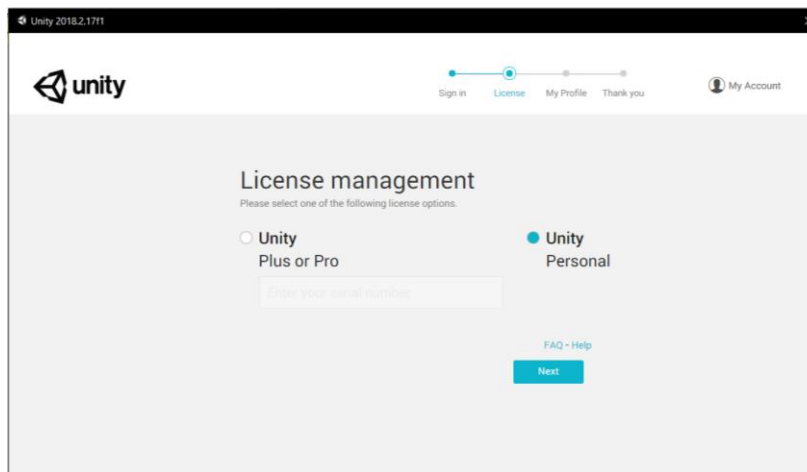

7. Bifati componentele ca in imagine ("Unity 2018, Documentation, Microsoft Visual Studio Community 2017") si continuati cu next.

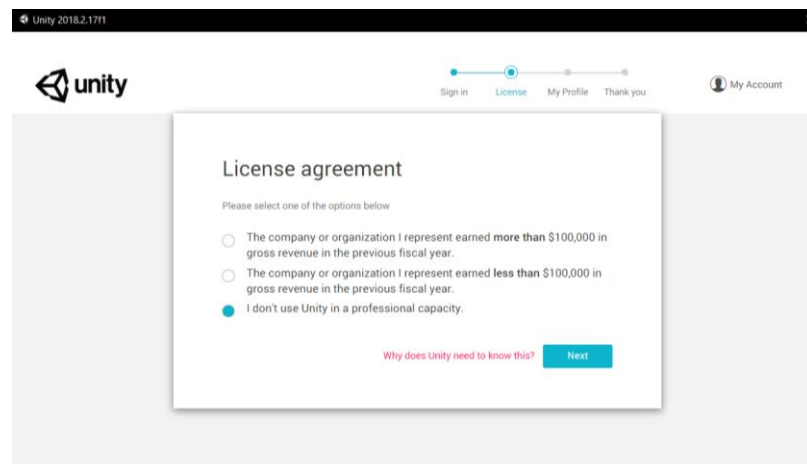

**8. Cand porniti Unity, va create cont sau va logati folosind Google/Facebook.**

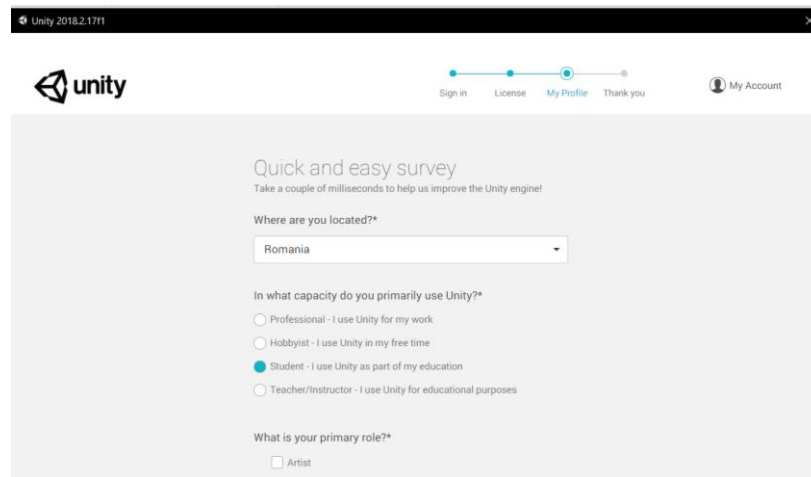

**9. Selectati Unity Personal si continuati cu Next.**

**10. Selectati ultima varianta "I don't use Unity in a professional capacity" si continuati cu Next.**

**11. Completati surveyul, avand grija sa selectati "Student" ca si primary use pt Unity.**

The image shows a web browser window with the Unity logo and navigation links (Sign in, License, My Profile, Thank you, My Account). The main content is a survey titled "Quick and easy survey" with the subtitle "Take a couple of milliseconds to help us improve the Unity engine!". The survey consists of three questions:

- Where are you located?\***: A dropdown menu with "Romania" selected.
- In what capacity do you primarily use Unity?\***: A radio button selection with four options:
  - Professional - I use Unity for my work
  - Hobbyist - I use Unity in my free time
  - Student - I use Unity as part of my education
  - Teacher/instructor - I use Unity for educational purposes
- What is your primary role?\***: A checkbox selection with one visible option:
  - Artist

***You're all set ! Ne vedem la workshop!***
